Federal Secure Storage Solutions

Core Competencies

Classified Data-at-Rest Protection

- Layered CSfC DAR protection with independent hardware and software encryption layers and authentication
- Portfolio of SSD hardware full-drive encryption for PCs, enterprise, and mission systems
- Pre-boot authentication, required capability, to enforce hardware encryption
- NSA-listed software FDE delivers secure, cost-effective protection for deployed systems
- Embedded data sanitization to meet compliance requirements and address emerging quantum threats

Differentiators

Mission-Centric Data Experts

- Single, full-stack CSfC for DAR solution provider
- Enterprise management via modern console and CLI
- Simple procurement with ecosystem of FSI and OEM device partners, including Dell, Getac, and Panasonic
- US-based, “Made in America” software development
- Mission-specific, custom software and firmware development

Past Performance

Cleared personnel (TS/SCI) with decades of DoD and IC mission experience

- US Deployed across Dept of War and Intel Communities for classified data protection
- In-Q-Tel portfolio company
- Prime or subcontractor on multiple contracts (including OTA for DAR solutions)
- ISO 9001:2015 certified business for quality management
- Most advanced data recovery lab in the country

DAR Compliance

- NSA CSfC DAR (Inner & Outer Layers)
- FIPS 140-2 / 140-3
- NIAP FDE_EE/FDE_AA
- NIST SP 800-53
- NIST SP 800-88
- HIPAA, SOX, PCI DSS, PII protection
